

Bridging the Gap . . . from Surplus Materials to Sturdy Homes

ALOHA KAKOU

Base Yard Hawaii (BYHI) is the only reuse facility in Hawaii that focuses exclusively on newly donated and recycled construction materials, equipment, and office furniture to provide homeowners with the materials and the means to repair and build their own homes. We provide four unique services:

- ▶ A 12,000 square-foot Holding Warehouse for inventory
- ▶ A Restoring Shop to repair reusable goods
- ▶ A Resale Store open to the general public
- ▶ A Construction Management Training Program for Native Hawaiian families

KOKUA OHANA

If your home is in need of repair or improvement and you are big on desire to learn and work, but short on cash and collateral, become a member of BYHI. We will train you to do much of your own work through our Construction Management Training Program and provide you with needed materials to

reduce the costs of your repairs and building. Working in partnership with building contractors, small business and building associations, we are able to secure quality surplus wood, concrete, fiberglass, metal, plumbing fixtures, carpeting, kitchen fixtures, office and home furniture, and electronic equipment, among other construction, restaurant, and office materials. We welcome all homeowners, with special aloha for Native Hawaiian households.

WHERE WE ARE LOCATED

Centrally located on Sand Island near Honolulu International Airport and adjacent to nearby freeways, BYHI covers nearly an acre of land with 15,000 square feet of yard space, 12,000 square feet of warehouse storage area, and over 3,000 square feet of office space and training centers. Our facility has easy access free parking and is ADA friendly ■

MALAMA PONO

If you are a building contractor, office or facilities manager, small business owner or other commercial enterprise with surplus construction materials, office or restaurant equipment or furniture in good condition, become a member of BYHI and we will gladly accept your donations of these materials and provide you with a well-deserved tax deduction. Your donation to BYHI will also save you dumping fees and help preserve the beauty of our Hawaii by recycling used or surplus goods and reducing landfills.

E KOMO MAI

The general public is invited to purchase or trade for newly donated or recycled materials at reasonable prices through our Resale Store. Materials that are recycled or restored through our training programs come with a limited guarantee. ■

Mahalo to the U. S. Environmental Protection Agency and the State of Hawaii Department of Business, Economic Development and Tourism who made possible the printing of this brochure.
